If I have any issues, I know I can contact the staff and they will support me.	100		
I am happy with my child's start to Reception at Harlow Green.	100		
Comments (anonymised)			
<p><i>I am so happy with the support and communication from the staff at Harlow Green. They are always there to listen to any worries and put your mind at ease. I regularly get updates and reminders through Tapestry which is lovely to see my child having such a great time or remind me of the things that might have slipped my mind amongst the chaos of being a busy working parent. I am amazed at the progress my child has made within their learning and was offered extra support, time that teachers took to spend with parents after school hours to help them support their children at home with their phonics. Which was very informative and helped a lot with my child's learning. My child has settled in very well and loves all of her teachers, who have been fantastic throughout her transition into reception, coming from an outside nursery.</i></p> <p><i>[My child] loves going to school and really enjoys all aspects of his time in reception, he is improving everyday with basic English and Maths skills, and enjoys the praise that comes with this. He has made lots of friends. All staff have been fantastic so far.</i></p> <p><i>Great school would recommend to anyone.</i></p> <p><i>[My child] has thrived since starting school. Her confidence & love of school shines through every day! I can tell she is happy & is supported by great staff just by her telling me all about her school day.</i></p>
